PREMIER

Using the latest, advanced technology to push the boundaries in delivering truly controlled, truly premier comfort.

20 TruComfort™ Variable Speed with WeatherGuard™

Heat Pump
up to 22.4 SEER2/
13.0 EER2/
10.5 HSPF2

Air Conditioner¹
up to 24.0 SEER2/
14.5 EER2

18 TruComfort™ Variable Speed

Heat Pump
up to 18.1 SEER2/
11.5 EER2/
8.5 HSPF2

Air Conditioner¹
up to 18.1 SEER2/
11.5 EER2

¹Does not meet ENERGY STAR requirements

These Heat Pumps meet ENERGY STAR requirements when appropriate coil components are used. Ask your dealer for details.

Select models include innovative Trane Link technology, which communicates between system components. Simply opt in through the Trane Home app to have your system's data remotely monitored for even the slightest system changes – letting you relax and enjoy the exceptional comfort your variable speed system provides.

WHAT IS SEER2?

Seasonal Energy Efficiency Ratio (SEER2) is an air conditioner's efficiency rating, similar to the miles per gallon for your car.

At Trane, we're constantly innovating for a more sustainable future—without sacrificing reliability, durability, or efficiency when it comes to your year-round home comfort. In response to federal regulations requiring HVAC systems to use low global warming potential (GWP) refrigerants by 2025, Trane dedicated extensive research to identify R-454B as a leading sustainable alternative. Our latest equipment with R-454B refrigerant offers zero ozone depletion potential and a 78% reduction in global warming potential compared to traditional refrigerants. This transition not only aligns with global environmental goals but also meets efficiency standards potentially qualifying for incentives. Talk to your Trane dealer or scan the QR code to learn more.

VARIABLE SPEEDS. CONSISTENT COMFORT.

Standard heating and cooling systems are constantly starting and stopping, which can cause uncomfortable temperature fluctuations. Trane® TruComfort™ Variable Speed air conditioners and heat pumps maintain consistent temperatures in your home by running at lower speeds for longer periods of time—without all the stops and starts. These units maximize efficiency and minimize electricity use by working at just the right level to keep you comfortable. As a result, you benefit from:

- ✓ Better temperature control
- ✓ Better humidity control
- ✓ Better air filtration
- ✓ Quieter than traditional systems
- ✓ Lowest cost per minute

WHAT IS HSPF2?

Heating Seasonal Performance Factor (HSPF2) measures heat pump efficiency during the heating season. The higher the number, the more efficient the unit.

SEET® TESTED

Every Trane system is put through some of the most extreme conditions found in nature in our SEET [System Extreme Environmental Test] lab. Put through five years of severe wear and tear in just a few months, our products can stand up to the harshest environments imaginable.

A CLOSER LOOK:

20 TruComfort™ Variable Speed Heat Pump with WeatherGuard™

WeatherGuard™ Top

Is not only attractive, the durable polycarbonate material provides lasting protection.
Available as optional accessory on select models.

Exclusive Refrigerant-Cooled Inverter

Helps keep electronics at a consistent temperature, leading to improved performance and reliability.

Climatuff® Variable Speed Compressor

Is the heart of Trane TruComfort™ technology. It automatically adjusts itself while maintaining constant and consistent comfort.

Compressor Sound Enclosure

Reduce operating sound for a quieter home environment.

Full-Sided Galvanized Steel Louvered Panels

Protect internal components while maintaining airflow efficiency.

Powder-Paint Finish

Exceptionally durable for maximum protection.

Integrated Fan System

Unique blade-down design improves airflow, enhances performance and reduces sound levels.

Exclusive All-Aluminum Spine Fin™ Woven Coil

Enhances airflow and heat transfer while resisting corrosion and leaks. They are proven far more reliable than traditional copper and aluminum coils.

Trane Link Communicating Control Board

Powers the compressor and controls communication between components to optimize your comfort and efficiency.

DuraTuff™ Rustproof Basepan

Built to withstand cracking, corroding, rusting or warping.

WeatherGuard™ Zinc-Coated Fasteners

Provide corrosion resistance and longer life, because even minor details are what Trane reliability is all about.

A Trane UX360 Smart Thermostat and system controller is required for all 20 TruComfort™ and 18 TruComfort™ heat pump and air conditioner models.

The 20 TruComfort™ Heat Pump with WeatherGuard™ shown is for illustration purposes only. Please note that features and components may vary by model. As part of our continuous product improvement, Trane reserves the right to change specifications and design without notice.

¹ Registered Limited Warranty terms are available when you register within 60 days of installation. You can register online at Trane.com or by phone at 855-260-2975, otherwise Trane's Base Limited Warranty terms will apply. Base Limited Warranty information on specific products can be found on Trane.com. Ask your dealer for full warranty information at time of purchase. Warranties are for residential and multi-family use only, some exclusions may apply. Product Registration and Registration Transfer exclusions vary in the US from state to state and in Canada from province to province. To determine if there are specific exclusions for your state or province check your local laws.

THE CENTER OF HOME COMFORT

Elevate your environment and experience a new level of home comfort with a Trane Smart Thermostat

Custom Comfort

A connected HVAC system is the foundation of a comfortable home. Trane's offerings are designed with each homeowner's unique lifestyle in mind, prioritizing flexibility and personalization so they can enjoy home comfort on their terms.

Seamless Connections

Trane's smart comfort systems are engineered to integrate effortlessly into a home and homeowners' daily lives. Easy to install, use and connect to Trane systems or other smart devices, a smart HVAC system enables unparalleled convenience and control.

Proactive Diagnostics

Trane's smart diagnostics, enabled by any Trane smart thermostat, allow dealers and technicians to predict and prevent issues before they arise. These proactive capabilities ease the maintenance process for homeowners, allowing them to focus on what matters to them most.

TRANE DEALERS ARE AS HARD TO STOP AS A TRANE ITSELF.

Independent Trane dealers take great pride in creating your perfect indoor environment. They are some of the most highly trained professionals in the business—with an extensive understanding of the movement and conditioning of air and the expertise to recommend, install and maintain the right system for your home.
