	Compact Plus Air Handler

 Select models include innovative Trane Link™ technology, which communicates between system components. Simply opt in through the Trane Home™ app to have your system's data remotely monitored for even the slightest system changes – letting you relax and enjoy the exceptional comfort your variable speed system provides.

To minimize environment impacts, the HVAC industry has transitioned to Lower Global Warming Potential (GWP) refrigerants. Trane's newest lineup of equipment designs harnesses this next-generation technology to maximize your year-round comfort while innovating for a sustainable future. Talk to your local Trane dealer to learn more about your best options.

TRANE LINK™ CONNECTIVITY.

Our most efficient model, Hyperion™ Variable Speed Air Handler, includes innovative Trane Link™ technology to control all of the system components.

TRANE HYPERION™ A REVOLUTION IN AIR MOVEMENT FOR EVERY HOME.

Trane's Hyperion™ series air handlers represent a significant advance in technology and whole-home comfort using 14 industry-exclusive patents. These exclusive components include ultra-quiet, efficient Vortica™ blowers and all-aluminum epoxy-coated coils, which offer longer life and superior odor prevention compared to conventional copper and aluminum coils. Fully enclosed insulation and double-wall cabinets ensure quiet, energy-efficient performance, while minimizing airborne dust and condensation that can cause mold and mildew.

CONVERTIBLE AND COMPATIBLE.

Trane's convertible air handlers combine affordability and flexibility to work with our complete range of heating and cooling products. All-aluminum coils, corrosion-resistant cabinet finishes and polymer drain pans deliver long-term durability. With multiple sizes and configurations available, you can be confident there's a model that will fit your home and comfort needs.

A CLOSER LOOK: Hyperion™ Variable Speed Air Handler

Heating Options

Allow you to add either hydronic or electric heating without changing the cabinet.

Electronic Refrigerant Flow Valve

Regulates the flow of refrigerant and provides compressor protection for maximum reliability and greater overall system life.

All-Aluminum Coil

Substantially more durable than conventional copper coils, for prolonged efficiency, longer system life and less chance of refrigerant leaking into the atmosphere.

Epoxy Coated Coil

Helps prevent odor and undesirable residue on the coil and is the first of its kind in the industry.

Fully Enclosed Insulation

Prevents loose fiberglass insulation from entering the air that your family breathes.

Vortica™ Blower

Uses less energy than conventional blowers to deliver more air, while reducing carbon emissions and noise.

Efficient Cabinet Design

Tough, double-wall construction and enclosed foam insulation virtually eliminates sweating and condensation. Less moisture and fewer dust particles are drawn in from garages, attics or crawl spaces, helping improve indoor air quality.

Modular Design

Enhances flexibility, allowing installation in tight spaces, without the need for expensive structural modifications to your home.

Rugged, Corrosion-Resistant Finish

Protects the Hyperion from scuffs and damage, ensuring a uniform appearance for years.

Positive Pressure Cabinet

Keeps unwanted air out of the unit.

Integrated Drain Pan

Made from rust-resistant polycarbonate, this unique drain pan is gently sloped in two directions to eliminate standing water and minimize the opportunity for microbial growth.

Variable-Speed Motor with Comfort-R™ Technology

Reduces noise by starting gradually and ramping the airflow up while eliminating hot and cold spots. Comfort-R™ also allows the careful regulation of humidity.

¹ Registered Limited Warranty terms are available when you register within 60 days of installation. You can register online at [Trane.com](https://www.trane.com) or by phone at 855-260-2975, otherwise Trane's Base Limited Warranty terms will apply. Base Limited Warranty information on specific products can be found on [Trane.com](https://www.trane.com). Ask your dealer for full warranty information at time of purchase. Warranties are for residential and multi-family use only, some exclusions may apply. Product Registration and Registration Transfer exclusions vary in the US from state to state and in Canada from province to province. To determine if there are specific exclusions for your state or province check your local laws

THE CENTER OF HOME COMFORT

Elevate your environment and experience a new level of home comfort with a Trane Smart Thermostat

Custom Comfort

A connected HVAC system is the foundation of a comfortable home. Trane's offerings are designed with each homeowner's unique lifestyle in mind, prioritizing flexibility and personalization so they can enjoy home comfort on their terms.

Seamless Connections

Trane's smart comfort systems are engineered to integrate effortlessly into a home and homeowners' daily lives. Easy to install, use and connect to Trane systems or other smart devices, a smart HVAC system enables unparalleled convenience and control.

Proactive Diagnostics

Trane's smart diagnostics, enabled by any Trane smart thermostat, allow dealers and technicians to predict and prevent issues before they arise. These proactive capabilities ease the maintenance process for homeowners, allowing them to focus on what matters to them most.

TRANE DEALERS ARE AS HARD TO STOP AS A TRANE ITSELF.

Independent Trane dealers take great pride in creating your perfect indoor environment. They are some of the most highly trained professionals in the business—with an extensive understanding of the movement and conditioning of air and the expertise to recommend, install and maintain the right system for your home.
